

The Bolham Bullet

ISSUE 925 28th March 2024

Good afternoon and Welcome to the last Bullet of the Spring Term.

This is the coldest Easter I can remember so I hope the weather improves whilst we are enjoying the holiday.

Thank you to everyone who has helped their children with the end of term topic projects. Every term I am more and more impressed with what they have produced. I hope you enjoy looking at them at the end of the day.

Thank you to FOBs for organising the Easter Egg hunt today, sadly the weather was against us, but it is always a lovely event!

Well done to everyone who entered the Egg mobile competition today. George has become the overall 2024 champion, but all competitors were amazing and there were some great designs!

Last night's Come and Sing choir concert at Wellington School was a huge success. Our 10 pupils were fantastic - they sang with energy and enthusiasm and the overall sound was impressive. A special well done to Ruaridh and Aria who entered the 'sing off'. Aria made it through to the final 4 (out of 15 schools) and Ruaridh won his round meaning that he sung a solo in the concert. It was well performed, and I was very proud of all of you, well done!

Thank you to all parents who attended the PGL parents evening after school yesterday. If you have any queries, please feel free to ask Miss Crang who will be leading the trip. Please can we ask that all outstanding balances are cleared ASAP over the Easter break.

Finally, we say farewell to Mr Morgan who has been teaching Class 3 for the last few weeks, we hope that you will be back again soon. We welcome Mrs Ledger next term who will remain with us until July.

I wish you all a very happy Easter,

Mrs Sarah Milne
Headteacher

DIARY DATES

Start of Summer Term -
15th April 2024

Exmoor Challenge - 4th May
PGL Residential Class 3 - 8th
May-10th May

CLASS 2 TRIP - BACKSWOOD FARM

On 15th March, we visited Backswood Farm to find out about farming in modern times.

We saw ewes with their lambs in the barn and in the fields and went to Farmer Andrew's garden.

CLASS 3

Below are two reports from the Class 3 broad bean experiment!

Class 3s broad bean experiment - Harrison

What happened to broad bean A:

Broad Bean A was stuffed away in a cupboard for four whole weeks with the door shut so it didn't have any light which is crucial to its growth.

What happened to Broad Bean B:

This unlucky Broad Bean had everything it needs only it got salt water which could have killed it but against all odds it's the tallest of all of them all.

What happened to Broad Bean C:

This Broad Bean got everything it demands but space because it had two brothers larking around.

What happened to Broad Bean D:

This very lucky Broad Bean got everything it needed to grow but despite that its quite small but not the smallest.

Class 3's broad bean experiment!

The experiment went well, out of broad bean a,b,c and d, c would have won if the three broad beans were stacked but end results, b won! I was shocked that broad bean b would have won because it's been fed salt water, but everything else required. Sadly, a was standing in 4th place, d was 3rd c was 2nd and b was 1st which really shocked me.

Sincerely, Jayden
